

# *music, media, locks & keys*

cd-rlrw

***The Sylvanius P Thompson Lecture from the Institution of Electrical Engineers***

**Music** - the front line of the battle against intellectual property theft.

Paul Jessop will describe the current state of the art in protecting music from abuse:

**watermarking - fingerprinting - laws - licence arrangements -  
new reproduction formats - delivery to consumers**

A series of examples and demonstrations will illustrate the lecture throughout.

**Thursday 8th February 2001**

**6 for 6.30pm LTB8, University Of Essex, Colchester.**

Directions: <http://www.essex.ac.uk/about/find.html>

**An Institution of Electrical Engineers Suffolk & Essex Younger Members Joint Event**
